C-1003

\$89.95

An environmentally-friendly alternative to flares — the Sirius Signal SOS C-1003 eVDSD is both family-safe and easy-to-use. It's powered by a potent, high-performance LED light that flashes an SOS distress signal — visible for miles. [Compare models](#)

C-1002

\$299.95

The Sirius Signal C-1002, two-color electronic Visual Distress Device, (eVDSD) is the world's first marine safety electronic flare to meet the new USCG safety standard. The C-1002 is five times brighter than any approved device on the market — incorporating 13 LEDs. The C-1002 includes

the Sirius Signal App for iOS & Android cell phones, taking boating safety to a new level using LTE service. [Compare models](#)

Included functions are:

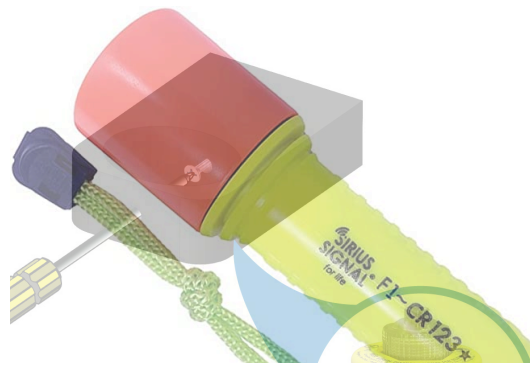

- Float plan notification
- One-touch Check Me, during trips
- Instantaneous SOS notification and location to first responders, towing services and other designated contacts
