Testimonials**

I wanted to express my gratitude for being a part of the Jump Start Program under the guidelines of the United States Power Squadrons. This program has helped me as a new boater, not only economically, but it has given me the knowledge to become a safe boater. The program has given me confidence in knowing the rules of the road on the waterways, maneuvering and docking, first aid, and knots to mention a few. I received personal training that teaches competent handling in the event of an emergency. I recommend the Jump Start Program to any new boater.
Thank you, Nate Calaway, Stockton, Ca, Vessel - Silverton 41' Twin Engine
