www.sjdps.org

Courses:

Seamanship

Engine Maintenance

Marine Electrical Systems

Electronic Navigation

Seminars:

How to Use a Chart

Basic Weather and Forecasting

Using GPS

VHF Radio and VHF/DSC Marine Radio

Self Study Courses and Seminars are Available Any Time

San Joaquin Delta Power Squadron is offering the above listed courses and seminars.
We will follow the below outlined format for this class:

- The Squadron Education Department has ordered the instructor kit which includes 1 course manual and PowerPoint cd for each of the above courses.
- A single copy of each seminar pamphlet has been ordered
- Student copies of the courses and seminars may be requested through our educational officers if students desire their own individual copies. The students will be responsible for all costs including sales tax and shipping.
- The Saturday prior to a scheduled squadron meeting, a group study/question and answer session will be given with course power point presentation and any other information, study questions, etc. (Voluntary participation)
- Course exams will be given 1 hour prior to squadron meeting the following Monday
- Course exams, when ordered, must be returned to HQ USPS by course administrator within 75 days of receipt of the exams.
- Seminars will be given based on interest shown by members
- Course and seminar costs will be held to a minimum just so we can cover our costs
- Seminars will have a minimum cost of \$10 to cover USPS seminar completion filing charges.
